## Education

**SRM Institute of Science and Technology, Ramapuram**

**2021-2025**

B.Tech Electronics and Computer Engineering

CGPA: 9.27 (upto 6th semester )

**Delhi Public School, Bangalore South**

**2021**

12th standard, CBSE

Percentage: 91.8/100

**School Of India, Bangalore**

**2019**

10th standard, CBSE

Percentage: 91.4/100

## Certificates

**Web development Bootcamp [Udemy]**

<https://udemy-certificate.s3.amazonaws.com/pdf/UC-77d4917e-3b33-458e-aab0-269ff7076c1a.pdf>

**Data Science for Enginners [NPTEL]**

**Elite, 66/100**

**Course on PSPICE**

**Internet of Things on Smart Devices by TVS Training**

## Internship at CSIR-CEERI from 11/01/2024 to 17/01/2024

I under went internship at Council of Scientific and Industrial Research(CSIR-CEERI), Chennai for one week. During my internship tenure I was able to gain first hand experience from top scientists from that facility and improved my skill to work efficiently in a team and lead a team.

## Projects

**Elecxa Website** <https://elecxa24.site/>

I built a website for my college department's symposium along with my friend.

**Railgun Launch System**

Railgun launch system is an alternative method designed to launch lightweight spacecrafts using a huge electric gun. Railgun provides the initial boost need for rocket to escape Earth's gravitational pull. It can also be used to launch spacecraft from moon and mars incase we colonize them in future and avoid excess need of rocket fuel.

**Automated Traffic Clearance for Ambulance**

To avoid any unfortuante incidents due to ambulance getting struck in traffic we designed a system that lays out path for ambulance to nearest hospital and clears any traffic in that path ahead for ambulance to reach its destination on time and save lives.

**Walking stick for blind using IOT**

A walking stick that consists of ultrasonic sensors and vibration motors. The ultrasonic sensors sense the obstruction ahead and send signal to vibration motors to vibrate. The vibration motors vary their intensity based on the distance of the obstruction from the visually impaired person.
