

RAAKESH RAVIE S

B.Tech. - Electronics & Computer Engineering

Ph: +91-9159444516

Email: rs9211@srmist.edu.in

Chennai, Tamilnadu, India - 600122

BRIEF SUMMARY

A highly enthusiastic individual currently pursuing B.TECH in Electronics and computer engineering (EKE) at SRMIST. Always eager to learn new software and programming languages while up honing my existing skills who's looking forward to kickstart my career in a company that makes best use of my skills and abilities by constantly testing me new tasks that could assist me to improve my skills while working under professionals and hope to give my best at work consistently.

KEY EXPERTISE

Python C++ Javascript MySQL Figma Electronic Circuit Design AutoCAD Embedded Systems

EDUCATION

SRM Institute of Science & Technology, Ramapuram

2021 - 2025

B.Tech. - Electronics & Computer Engineering | CGPA: 9.06 / 10

Acharya Siksha Mandir, Puducherry

2021

12th | TNBHSE | Percentage: 86.50 / 100

Acharya Siksha Mandir, Puducherry

2019

10th | CBSE | Percentage: 83.60 / 100

INTERSHIPS

CSIR-CEERI Chennai Centre

11 Jan, 2024 - 17 Jan, 2024

Key Skills: Embedded Systems Arduino UNO Python C++

I under went internship at Council of Scientific and Industrial Research (CSIR-CEERI) Chennai Centre for a week . During my internship tenure I worked alongside professional scientists on a project focused on navigating emergency vehicles swiftly across traffic to reach their desired destination on time . I was able to gain first hand experience from working alongside senior scientists.

PROJECTS

Automated traffic clearance for emergency vehicles

11 Jan, 2024 - 17 Jan, 2024

Team Size: 3

Key Skills: Embedded Systems Python Arduino UNO GSM C++ Interfacing

To avoid any unfortunate incidents due to ambulance getting stuck in traffic which naturally makes those situations a race against time to save a life on the line , we designed a system that navigates the path for the ambulances to their nearest hospital locations and clears any traffic present in that path ahead and prevents any further accumulation of vehicles in that path for ambulance to reach its destination on time and save lives.

Walking stick for blind using IOT

20 Feb, 2023 - 25 Feb, 2023

Team Size: 4

Key Skills: Internet of Things Sensors Interfacing Electronic Circuit Design

A walking stick that consists of ultrasonic sensors and vibration motors. The ultrasonic sensors sense the obstruction ahead and send signal to vibration motors to vibrate. The vibration motors vary their intensity based on the distance of the obstruction from the visually impaired person.

Rail gun launch system

12 Sep, 2022 - 23 Sep, 2022

Team Size: 3

Key Skills: Electronic Circuit Design Physics Environmental Science

Railgun launch system is an alternative method designed to launch lightweight spacecrafts using a huge electromagnetic gun. Railgun provides the initial boost needed for rocket to escape the Earth's gravitational pull. It can also be used to launch spacecrafts and supplies from moon and mars incase we colonize them in future and avoid excess need of rocket fuel.

ACHIEVEMENTS

- 2nd prize in CHEM FACTS (chemistry quiz)

ASSESSMENTS / CERTIFICATIONS

Course on PSpice

Key Skills: PSpice

This is the certificate for successful completion of the institutional course on PSpice offered by Livewire on June 2022

Paper presentation

Key Skills: Interfacing Electronic Circuit Design Physics

In the PAPER PRESENTATION event conducted as a part of the National Level Symposium BIORGANZA 2K22 held on 10th November 2022 I have presented my project paper on "Spacecraft Launch system using railgun".

Data science for engineers

Aggregate: 58 / 100

Key Skills: Data Science Statistical Data Analysis SQL Python Deep Learning Logistic Regression

This certificate was awarded for the completion of the "Data science for engineers" course conducted for 8 weeks by NPTEL I have learnt how to handle statistical and analytical data using machine learning and deep learning algorithms using python and SQL.

Project EXPO-2024

Key Skills: Embedded Systems Arduino UNO Interfacing Python GSM

In the project EXPO-2024 we have presented our project on "Automated traffic clearance for emergency vehicles ".We designed a system that navigates the path for the ambulances to their nearest hospital on time by clearing the traffic along the way.

UI/UX Designing

Key Skills: UI/UX Designing Figma HTML CSS Flexbox

In this 28 hours course on UI/UX Designing using Figma I mastered designing front end web and application pages compatible for any device size using the Figma platform .

POSITIONS OF RESPONSIBILITY

Student Coordinator on ELEXCA'24

As a student coordinator of the ELEXCA'24 symposium conducted by ECE department I ensured the smooth operation of technical events .

SEMINARS / TRAININGS / WORKSHOPS

Internet Of Things using smart devices Institute Name: TVS trainings and services

20 Feb, 2023 - 24 Feb, 2023

Key Skills: Internet of Things Arduino UNO Sensors Activation Interfacing

During the one week training period at the workshop conducted by the TVS training we worked on interfacing several different sensors with Arduino UNO and also developed A walking stick for blind using IOT that consists of ultrasonic sensors and vibration motors.

AI with python

27 Aug, 2022 - 27 Oct, 2022

Institute Name: IIT Guwahati

Key Skills: Python Artificial Intelligence Machine Learning Microsoft Azure Pandas

I had participated in "Artificial Intelligence with Python" training program conducted by IIT Guwahati for 2 months .During the training period I gained exceptional knowledge on AI/ML concepts , also got good exposure on the fundamentals of Microsoft Azure.

Web development workshop

Institute Name: SRM Institute of Science & Technology, Ramapuram

Key Skills: Front-End Web Development Javascript UI Development HTML CSS

In the web development workshop conducted at our SRM institute of science and technology I got exposure on UI development and learnt about the basics of web development and design at front end using HTML, CSS and JavaScript .

EXTRA CURRICULAR ACTIVITIES

- Solving puzzles and Rubik's cubes
